

Aarthi Rajarajan

Senior UI/UX Designer

Email: aarthirbtechit@gmail.com

Contact: (+60) 106609851

SUMMARY

Senior UI/UX Designer with over 7 years of experience crafting intuitive experiences for fintech, healthcare, SaaS, B2B, e-commerce, and edtech platforms across web and mobile. Skilled in end-to-end design processes including user research, wireframing, prototyping, and usability testing. Experienced in app redesigns, building design systems, and working closely with developers, product managers, and stakeholders to align design with business goals.

SKILLS

Design tools: Figma, Framer, Lottie, Lovable

Skills: Design Systems, Lo/Hi-fi Wireframers, Rapid Prototyping, User Interface Design, User Experience Design, User-centric Design, Usability Testing, Information Architecture, User Journey Mapping, Web and Mobile Design (Native HIG & Material Design)

PROFESSIONAL EXPERIENCE

Snappymob Sdn. Bhd.

Malaysia

Senior UI/UX Designer

Jan 2025 - Present

- **Project: FinTech, Malaysia**

- Designed an end-to-end web and responsive **finance management product** as a lead designer for a high user base client.
- Defined the product vision and UX strategy, aligning stakeholders, business goals, and user needs.
- Created **high-fidelity prototypes** and gathered stakeholder feedback to validate requirements and refined the overall user experience.
- Engaged stakeholders with a high attention to detail, streamlining design iterations to deliver a faster and more seamless experience for clients.
- Worked closely with engineering teams, enabling smooth implementation through detailed specs and design-ready assets.
- Collaborated with developers on UI bug reports for smooth deployments and successful public releases.

- **Project: JBI, University of Adelaide, Australia**

- Collaborated closely with designers to standardize the UI by developing a **design system** and implementing it across various research software products that initially lacked visual and user experience consistency.
- Designed new product features through the full process from user research, wireframing, and prototyping to developer handoff and QA alignment, resulting in improved user engagement.
- Defined intuitive user journeys, task flows, and information architecture for JBI systems.
- Created clear and accessible UI designs aligned with JBI's internal design standards and digital branding.
- Provided design direction grounded in best practices and maintained up-to-date knowledge of evolving UI/UX trends and accessibility standards.

Golden Equator

Singapore (Remote)

UI/UX Designer

Nov 2021 - Sep 2024

- Spearheaded the redesign of Swish's web, Android, and iOS applications, and introduced a new design system that resulted in a unified user experience.
- Designed engaging features for Swish, including gamification, leaderboards, challenges, and in-app purchases.
- Conducted qualitative user research to identify pain points and translated insights into a seamless user experience, boosting user **engagement by 40%**.

NFN Labs

India

UI/UX Designer

May 2019 - Nov 2021

- Contributed to the design and development of **10+ successful cross-platform** projects across various countries, focusing on user-centric design.
- Excelled in all stages of the design process, including conducting thorough qualitative and quantitative user research.
- Drove product development from concept to launch using user journey mapping, wireframing, prototyping, and user testing.
- Applied strong analytical skills to identify user pain points and translated them into actionable design solutions.
- Contributed to the feature development of Breadcrumb app by working closely with the end users, which was recognized by the **Apple Developer Community**.
- Lead the redesign of Let's Huddle product, resulting in a **40% increase** in both investment and user engagement through an intuitive user experience.
- Contributed to a US based mobile app that achieved rapid user adoption with over **2,000 sign-ups** on the first day.

GUVI Geek Networks

India

UI/UX Designer Intern

Dec 2018 - Mar 2019

- Contributed to the design and development of GUVI's e-learning platform, accessible on both web and mobile platforms.
- Created engaging visual assets for GUVI, including brochures, marketing materials, and posters.
- Played a key role in designing GUVI's integrated development environment (IDE) for writing, editing, running, testing, and debugging code, which garnered over **100,000 downloads**.

EDUCATION

Bachelor of Information Technology

2015 - 2019

PSNA College of Engineering
